

Aircraft Maintenance Engineer Survey

Results – December 2020 (754 responses from July to Nov 2020)

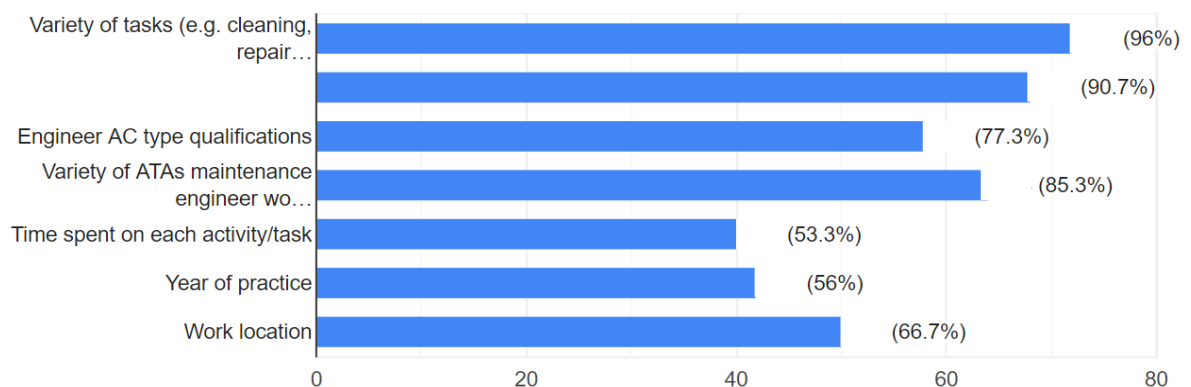

How do you record your maintenance tasks?

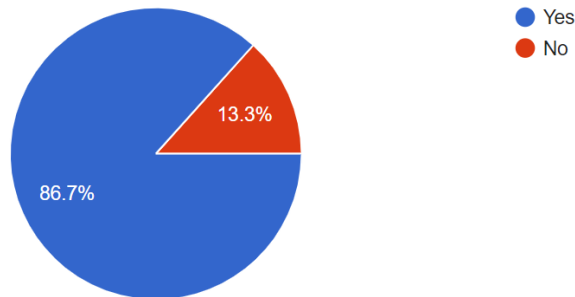

Would you like to have your own FREE mobile tool to daily record your maintenance tasks and track of them?

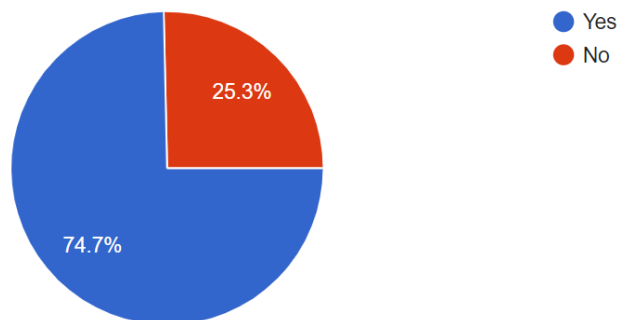

If Yes, which of the following information you think should be recorded to value your experience as maintenance engineer?

Would you like the tool to provide alerts to ensure you have completed sufficient number of tasks before your license/authorisation official expiry date?

Would you like the tool to automatically issue form for license/authorization renewal?

AMS Decision has recently launched AMS Community. **AMS Community** is a **FREE** mobile and desktop solution designed for Aircraft Engineers to :

- (i) document their experience in real time,
- (ii) generate professional reports in one click,
- (iii) ease license application & renewal,
- (iv) set alerts,
- (v) store all their data securely in the cloud,
- (vi) comply with EASA & FAA as well as all other regulations

To register just click on the link below.
